To be successful in the grant process you need to know how all the “pieces” fit together. Throughout the grant process you will meet with Planners, Engineers, Environmentalists and Team Leaders.

On June 9, the South Carolina Aviation Association and the SC Aeronautics Commission will host a seminar to provide each FAA Grant Segment (Planner, Engineer, Environmentalist, and Team Leader) time to review the common pitfalls and issues that they see that slow down the grant process. This class will help you avoid grant pitfalls and improve the timeliness of your grant payments.

Also included, the SC Aeronautics Commission staff will provide a state maintenance and industry update.

In the afternoon, each airport will have a 15 minute one-on-one session with each FAA and state segment to discuss specific issues.

RSVP by June 5.
